Fish and Wildlife Checkpoint

The Department of Fish and Wildlife, Law Enforcement Division will be holding a fish and wildlife checkpoint on November 15, 2024, at the Long Valley Agricultural inspection station Highway 395, 3 miles South of Hallelujah Junction (Hwy 395 and Hwy70) in Lassen County.

This checkpoint will screen hunters and anglers who are entering California. The checkpoint coincides with several out of state closing weekends. It will also screen incoming harvest from out of state for chronic wasting disease and aquatic invasive invertebrates on incoming vessels.

Fish and wildlife checkpoints are a useful method designed to educate the public about laws, regulations, and resource conditions. Checkpoints are also used for detection of resource related violations.

The November 15th checkpoint is scheduled from 12:00 PM to 4:00 PM.
